Steamship Reports Black Hull Corresponding to That of the Missing F. J. Luckenbach.

Washington, June 4.—Hope has been revived in shipping circles that a black hull steamer seen by the crew of the steamship Minnesota lying or Rooby Cay, a small isolated island in the Bahamas, may be the missing American steamship F. The island on which the steamer was reported lying is out of the Minnesota in that locality is accounted for by the fact that she mer a strong current that carried her out of her course. Painless Dental Our natrons often ask: "How

are you able to charge low prices for such beautiful dental work?" The answer is: There is a large profit in dental work, and partly because we prefer a large practice at small prices to a small practice at large prices, and partly because the combination of several men in one office minimizes expense. Also, by supplying our different offices we buy an immense lot of teeth, gold and other dental supplies, thereby saving a large discount. Therefore we can, by doing dental operations PAINLESSLY and in less time, turn out the best dental work at moderate cost.
